RE: ARKWOOD INC. SITE

Mr. Grisham, Jr.

Your e-mail of September 21, 2011, to Frank Robinson with copies to other McKesson employees and representatives was forwarded to me. As you have been made aware and acknowledged, I represent McKesson in the Arkwood, Inc. site matter. In the future should you feel a need to communicate with my client regarding the Arkwood Inc. site, please do so through me.

I respectfully request that you advise me by return e-mail by what authority you are making contact with the U.S.EPA, ADEQ and McKesson Corp. Are you acting as a spokesperson for the Ormond Group? As noted in my letter of September 14, 2010 to your father, a copy of which was furnished to you on April 11, 2011, you have communicated "as a family member of the owners of the property." Also noted in that correspondence you have attempted to identify yourself as only a concerned member of the public not subject to the Settlement Agreement which places restrictions on the Ormond Group. That representation contradicts your previous assertion that you were a beneficiary of the Ormond Group and that you had a financial interest in the site. Before we can allow McKesson to have any further communication with you, your position must be unequivocally stated.

Again, please advise by return e-mail.

Don A. Smith
